SINRAFT Records: bootleg split 7" single

Uncovered at Austrian customs, this bootleg 7" single has been seized by Skin Graft Records for lawful distribution worldwide. Originating in Russia by the rogue record label SINRAFT Records, this vinyl record includes unauthorized live recordings of Montreal's AIDS WOLF and London's PRE, packaged in a full color 8 page calendar of compromising band photos.

Following is the original solicitation from SINRAFT records:

Statement from Walt Freleng, legal department, SKiN GRAFT Records:

After consulting both bands, we have decided to make this unsanctioned release available for lawful distribution. Skin Graft Records takes the protection of its artist's rights very seriously. This record and its packaging are flagrant violations of those rights and its production is an entirely unethical and reprehensible act. It is our intention to prosecute the parties responsible to the fullest extent, and we hope that the swift kick dealt to the perpetrator's very minor intellectual properties will serve as a warning to other would be pirates.

PRE's debut album "Epic Fits" and AIDS WOLF's latest, a collaboration with ATHLETIC AUTOMATON are both out now.

PRESS QUOTES

"Gonzo punkers PRE are well on their way to superstardom. Like Karen O on a cocktail of narcotics, crazy lead singer Keeks Matsuura screeches alongside messy metal guitars with an energy that'd make duracell proud." - NME

"AIDS Wolf formed 18 months ago, and they've already been the subject of polarised debate between two Pitchfork critics. Last year a photo of their spastic live show headed a New York Times article on the Montreal music scene. They've been name dropped in Spin. And all this happened without an album to their name."
