KOENJIHYAKKEI "Dhorimviskha"
BEST ALBUMS of 2018 - BANDCAMP DAILY

"...towers over most modern progressive rock because of an attention to detail and an almost overwhelming force of conviction. No irony here: this rocks with the teeth and heart to cut through scenes and the "overground" like a knife." - **PITCHFORK**

"Headed by 'vocalist / composer / drummer extraordinaire' Tatsuya Yoshida, this group is a boiling-hot, Stravinsky-meets-Sex Pistols stew of blaring woodwinds, power chord guitars, shimmering synths, and soaring, operatic vocals delivered by a front-woman 'speaking in somersaulting tongues'." - **TINY MIX TAPES**

"Not only the most brilliant of all of contemporary Japanese bands, but perhaps the greatest group currently operating in the world." - **ALTERNATIVE PRESS**

"Holy shit, right?" - **FECKING BAHAMAS**

Some bands you just have to hear. Japan's **KOENJIHYAKKEI** (aka Koenji Hyakkei) are just such a band. Tatsuya Yoshida's (of the renowned bass and drum duo **RUINS**), progressive rock powerhouse is Area and ELP at their most excessive; Deus Ex Machina with tempo changes multiplied by 100; and Magma at their orff-ian choral, fusion jazz, overcharged gospel peak.

"Angherr Shisspa", the band's landmark fourth album explodes with glittery keyboard lines, speedy bass/drum workouts, emotive reed respites, and operatic female vocals that take the listener from sheer exuberance to absolute apocalypse... all performed with superhuman technique in confoundingly catchy, complex arrangements.
